ESET

Stay protected, wherever you are and however you connect

The Internet is an exciting place, and it's playing an increasingly important role in all our lives. With so much to discover, we believe that you should have peace of mind on your online journey.

Whether you're using a public Wi-Fi hotspot, browsing or downloading, banking and shopping online, or letting your children use the internet, ESET technology will keep you safe.

For three decades we've been helping people to protect their digital worlds. From a small, dynamic company we've grown into a global brand with over 110 million users in 202 countries and territories.

Many things have changed, but our core aspirations, philosophy and values remain the same – to help build a more secure digital world for everyone.

110M+
protected users worldwide

100+
prestigious VB100 awards

30+
years of cutting-edge cybersecurity

Award-winning protection

ESET ranks among the best in the industry, as evidenced by our multiple awards and certifications from organizations such as AV-TEST and AV-Comparatives.

State-of-the-art technology

Advanced machine learning, DNA detections and our cloud-based reputation system are just some of the cutting-edge tools developed in our 13 R&D centers.

Made in the European Union

ESET values, like integrity, social responsibility and independence, all stem from our European roots and are safeguarded by our private ownership structure.

TOP FEATURES AND BENEFITS

ESET HOME

A web portal and mobile app for Android and iOS where you can download, share and renew security solutions, add and protect new devices, and remotely check your overall protection status. Instant notifications and license sharing with your family and friends are now at your fingertips.

ESET HOME. The home of your security.

ESET LiveGuard

An additional security layer that proactively discovers and stops new, never-before-seen types of threats by using enhanced techniques. ESET LiveGuard is a service that is personalized to you and handles a wide range of file types, including documents, scripts, installers and executable files. Suspicious files are run in a safe, sandboxed environment within the ESET HQ Cloud.

Only available with ESET Smart Security Premium.

Banking & Payment Protection

Features a special secured browser mode through which you can safely pay online and run any supported browser in secured mode by default (after setup). Automatically protects you while internet banking and accessing web-based crypto-wallets. Encrypts communications between the keyboard and the browser for safer transactions and notifies you when using the feature on public Wi-Fi. Protects you from keyloggers. The "SecureAllBrowsers" mode is activated automatically for all compatible browsers.

Only available with ESET Internet Security and ESET Smart Security Premium.

Network Inspector

Enables you to test your home router for vulnerabilities, such as weak passwords or out-of-date firmware. Provides you with an easy-to-access list of router-connected devices (smartphones, smart devices) with improved device detection to show you who's connected (device name, IP address, MAC address, etc.). Enables you to scan smart devices for vulnerabilities and gives suggestions on how to fix possible issues. Offers the possibility to mark a network as My network (only for trusted networks).

Only available with ESET Internet Security, ESET Smart Security Premium and ESET Mobile Security.

Password Manager

Helps you store and organize passwords, automatically fill in forms and generate extra-strong encrypted passwords. All you need to remember is your master password. You can also remotely log out from all websites, clear your browsing history or close browser tabs. Receive security alerts when your passwords are at risk. Biometric authentication is integrated, and two-factor authentication (2FA) with Google Authenticator can be incorporated.

Only available with ESET Smart Security Premium.

ESET SMART SECURITY PREMIUM

ESET INTERNET SECURITY

ESET NOD32 ANTIVIRUS

Our premium multilayered antimalware protection: work and play without slowdowns. Stay proactively protected even against never-before-seen threats, thanks to ESET LiveGuard. Encrypt your files and removable media (USB keys). Stay safe while banking and accessing crypto-wallets. Protect your webcam and router. Generate extra-strong encrypted passwords and share them securely.

Rock-solid multilayered antimalware protection, balancing detection, speed and usability. As well as utilizing the award-winning ESET Antivirus, Antispyware and Firewall, you can protect your webcam, check your Wi-Fi router and connected smart devices, and use ESET's special secure browser window. Exploit Blocker works to defeat ransomware and lockscreen attacks.

A security solution combining maximum protection and minimal system footprint. Our advanced technologies use machine learning to prevent infiltration by viruses, spyware, Trojans, worms, adware, rootkits and other threats without hindering system performance. The ESET LiveGrid®feedback system improves end-user protection against rapidly changing threats such as new types of ransomware.
